If a course was **not assigned** (i.e. due to the capacity) you can wait for any change during the run - when a capacity appears - > choose “Select” -> confirm the time table.

4) During the 3rd round, most importantly, you can add additional courses where are free spots (“ADD SELECTED COURSES”); you can exchange for the courses where capacity was already full.

This round is based on time competition, first comes, first serves! Choose a course -> confirm time table -> confirm = the course is enrolled into your study sheet.

You can also remove the selected courses which were not enrolled.

BUT, again, be aware of the sum of credits confirmed in the previous Enrolment runs. If you plan to exchange courses in your sheet (add new one instead of the already enrolled course), you should add the new course first and then remove the other. The system accepts the change if the total number of credits is not under the sum of enrolled credits in the Automatic enrolment.

Be aware about the workload and time conflicts!
