Optional courses - IB - Winter semester 2021 (=WS 2021)

Optional courses:
==>> The list of optional courses is available in your InSIS during the registration period -> Student's portal -> Registration/Enrollment -> **sV**
==>> Follow instructions given at the **IB website** for your registration - **section "Registration for courses"**

Form of teaching:
- **Regular courses** - once or twice a week, 13 weeks in total
- **Intensive courses** - taught just once in a semester in an intensive form, usually 3-4 days, from morning till evening - these dates are written in the "note" in the registration - Regular course units
    - ✓ you **can choose both** forms
    - ✓ it is recommended to register max.2 intensive courses in the semester due to an expected absence in the regular courses

How many optional courses you should take:
- See the document "Procedure of the registration" on the IB web
- See also InSIS -> Student's portal -> Plan progress check

Important: **Register only the courses which <u>allows you to choose the time table</u>, if this step doesn't work it means that the course won't be taught in WS 2021** (not all courses on the list are available each semester!)

Other important notes for your work during the registration/enrollment in InSIS:
1) **Watch out the possible time schedule conflicts - you can´t take the courses which are taught at the same time !!!!**
2) Read **CAREFULLY** the instructions of the registration/enrollment "**Procedure"** at the IB website
3) Some courses are taught in other languages than English (German, French). You can study this course if it is not your native/mother language - you can count credits to the study plan. If the instruction language is your mother language you can take it ONLY from the "reserved" credits - it will not be counted to your IB study plan

Additional information:
Intensive courses arranged/organized by the IB office in WS 2021:
2MO462 Doing Business in Russia
2MO463 Protection of Intellectual Property (Innovations)
