Decision on financing

Table contains a list of decisions about payments for study financing. If the amounts in column Settled have another amount stated in brackets, they are the paid amounts after recalculation of all overpayments from all decisions. It means that to settle the decision an overpayment from a different payment was used, or that the overpayment from this payment was used to settle another decision. The Sum column contains the sum, the decision was issued for. The Manually column may contain the modified amount, which is currently requested.
